

RISHABH JAISWAL

+91 93367 30994 | rishabhjaiswal9029@ce.du.ac.in | GitHub | LinkedIn | New Delhi, India

Professional Summary

Computer Science undergraduate specializing in Generative AI and Retrieval-Augmented Generation (RAG), with proven experience engineering AI-driven platforms, accessible technology solutions, and full-stack applications. Spearheaded technical teams and delivered production-ready products from concept to deployment, combining strong technical execution with cross-functional leadership.

Education

Faculty of Technology, University of Delhi 2024 – Present
B.Tech in Computer Science and Engineering | CGPA: 8.5 / 10

Semstar Global School — CBSE Class XII 2022 – 2023
Percentage: 83.3%

Experience

Director of Technical Activities — IEEE Student Branch, Faculty of Technology, DU 2025 – Present

- Spearheaded all technical initiatives, workshops, and inter-college competitions for the IEEE student branch, aligning programming with member interests in AI and robotics.
- Directed cross-functional teams across hackathons and robotics events, expanding participation by organizing and promoting multiple large-scale events.

Project Coordinator — Drishti Mitra, Sankalp Organization Aug 2025 – Dec 2025

- Led an inclusive education initiative supporting specially-abled students through AI-driven assistive tools and adaptive learning resources.
- Partnered with institutional bodies affiliated with NITI Aayog, MCA, and MSME-MSJE to expand outreach and secure programmatic support.

Projects

AI-Driven Chatbot for INGRES — Smart India Hackathon 2025 [Link](#)

- Engineered a RAG-based chatbot enabling natural-language queries over India's INGRES groundwater database, integrating multilingual support via the Bhashini API and real-time spatially-aware PostGIS dashboards.

DrishtiAI — Voice-First Learning Platform [Link](#)

- Designed and developed a voice-first AI educational platform for visually impaired students, implementing TTS/STT pipelines, a screen-reader-compatible UI, and AI-driven adaptive learning pathways.

MandiQ — AI-Driven Price Intelligence Platform [Link](#)

- Developed an AI-powered price intelligence platform, training predictive models on historical AGMARKNET and weather data to forecast mandi prices; Top 10 Finalist, India Food Systems Transformation Hackathon 2026.

Z-Trace — Indoor Localisation System [Link](#)

- Built an indoor localisation system enabling real-time, GPS-free tracking of people and objects, leveraging Wi-Fi RSSI and BSSID signal triangulation for accurate positioning.

Skills

Languages: C, C++, Python

AI / ML: Machine Learning, RAG, Generative AI, GANs

Frameworks: Streamlit, FastAPI, Gradio

Databases: Oracle, PostgreSQL, MongoDB

Dev Tools: Git, GitHub, VS Code, Colab

Leadership & Soft Skills: Team Coordination, Event Management, NGO Outreach, Stakeholder Communication

Creative & Content: Canva, Reels & Short-Form Video Editing, Social Media Content Management

Achievements & Recognition

- Top 10 Finalist — India Food Systems Transformation Hackathon 2026 (MandiQ project)
- Selected for Prototype Phase — AI for Bharat Hackathon 2025
- Qualified Internal Round — Smart India Hackathon 2024
- Elected Director of Technical Activities — IEEE Student Branch, Faculty of Technology, University of Delhi
